

# **EL5 IR Dome**

Rugged 5MP IR dome with video analytics

## 

The **EL5 IR Dome** from March Networks brings 5MP resolution and active IR illumination to deliver high-quality images in a variety of lighting conditions. The camera features a set of powerful video analytics including tripwire, intrusion detection, loitering detection, and abandoned object, and is rated for indoor and outdoor use with a housing designed to be weatherproof (IP66) and vandal-resistant (IK10).

## **Key Benefits**

#### Built-In Video Intelligence

- Abandoned Object an alarm is triggered if an object remains in one spot for too long.
- Loitering Detection an alarm is triggered when people remain in an area for too long.
- **Tripwire** an alarm is triggered when a person or object crosses the defined line.
- Intrusion Detection an alarm is triggered when people or vehicles enter a specific area.
- Object Removal an alarm is triggered if an object is removed from an area.
- Rugged housing. The IK10, vandal-resistant design withstands impact on the body of the housing, and the IP66 rating protect the camera from dust and water intrusion.
- Smart IR Illumination. The built-in LED provides uniform illumination in a variety of lighting conditions, which means users will see high-quality, low-noise video from 30 m (98 ft). Additionally, the camera automatically adjusts the intensity of the IR LED to compensate for the distance of an object, so the object is not overexposed when it gets too close to the camera.
- Never worry about losing video again. Our cameras can record to internal microSDHC cards or NAS devices, giving you redundant recording in the event of a network outage or power failure.

A cost-effective camera that delivers high-quality images in a variety of lighting and weather conditions.
